ANNUAL PICNIC A SUCCESS

The annual picnic of U.F.A. took place last Tuesday and proved a success although the season was a busy one, and two ball games were on deck to the east and west of here the same afternoon. The band furnished music, and a series of sports were indulged in till late afternoon. The dance in the evening was a grand event, the hall being filled to capacity. The Ponoka orchestra furnishing the music. An interesting address was given by Rice Sheppard, of Edmonton, also a few remarks from C. O. Cunningham, M.P.P. These were also features of the day that help to make the success complete.

Miss Agnes Wetters spent a few days at home, but returned to the hospital, Lacombe, last Thursday.

Aunt and Andrew Vold are home on a well earned holiday, from Camrose College.

U.F.A. Sunday's services were conducted at the church by Rev. James of Wetaskiwin. A great number from outside points of the district also attended, making a large congregation for the day.

Water Glen

Owing to foul weather last Thursday the U.F.A. picnic was postponed for another week, namely, June 24th, Midsummer Day.

Arthur Sykes, of Wilkie, Sask., was in the neighborhood for a few days last week visiting old friends.

Miss Bernice Bloomquist, of Bellingham, Washington, is spending the summer holidays with her sister, Mrs. Gunnar Nelson.

Mrs. Elmer Haggland and daughters spent Saturday and Sunday at the home of the grandparents in Malmo.

Peterson's motored out to Metiskin last Saturday where they intend to spend a week with Mr. and Mrs. Geo. Peterson.

Mr. and Mrs. Nickelson and family motored to Wetaskiwin last Sunday.

Arthur Sykes spent Wednesday evening at the home of Mr. and Mrs. Peterson.

Miss Lily Lindberg and Art. Erickson spent Sunday in Camrose.

The Baptists held their conference in Water Glen between July 1st and 4th.

SCHOOL REPORT

Eastside

Grade 7.—Lenora Scott 80.75, Iver Davies 78.0, George Scott 72.0, Charlie Scott 62.75, Mildred Wheeler 52.5, Phil Kakin.

Grade 5.—Cora Wheeler 78.18, Chester Branner 73.57.

Morningside

The anniversary services which were held in the church, Sunday, June 13, were well attended. The weather was everything that could have been desired, and Rev. Bar. Lacombe, preached to large congregations both in morning and evening.

The entertainment on Monday evening was well by everyone to be one of the best ever held here. Prof. Touche and his famous orchestra from Lacombe rendered excellent music. Mr. Cameron, also from Lacombe, delighted the audience with his popular Scotch songs and stories. Those who took part in the programme from Morningside were—Miss Jessie Redie, Misses Helen and Della Bolton. Miss Helen Bolton opened the entertainment with a piano selection, "At the Fountain." Miss Redie, who is a talented violinist gave two violin solos which were heartily enjoyed. Miss Della Bolton, a rising pianist, delighted every one with several recitations. Rev. Bar. of Lacombe, and Mr. Hall, of Edmonton, gave short addresses, and Rev. Stewart made an excellent chairman. The proceeds were about \$50.

Mr. and Mrs. Barnes, of Springfield, visited at the latter's parents, Mr. and Mrs. Stelfox, last week.

A. Driggs spent about ten days with his daughter, Mrs. Louise Jackson, in Brant, Southern Alberta, returning last week.

On Thursday of last week a joint meeting of the W.M.S. was held in the Church. Mrs. McDonald, of Lacombe, was present, and gave a splendid report of the Women's Council, which was held in Calgary quite recently. Devotions were served at the close. The meetings will be held in the church for the months of July and August.

Miss Helen Redie, of Lacombe, spent a few days last week with her sister, Miss Redie.

A GREAT IDEA

St. Joseph, Mo., June 18.—W. F. Fullerton, St. Joseph banker, is building a row of houses for rent only to families in which there are children and to newly married couples. Newly-weds, according to Mr. Fullerton, will be allowed to occupy the houses with the provision that if there are no children in their families at the end of one year's residence, they will be asked to vacate. Whenever a child is born in one of his houses, Mr. Fullerton announced, the rent for that month will be returned to the tenant.

Grade 8.—George Ross 80.11, David Howell 83.25, Helen Wheeler 71.00, Keith Miller 71, Anna Lakso 61.85.
Grade 1.—Helena Ross, Lawrence Lecker, Mona Wheeler, Catherine Johnson.
ANTON J. BIERES, Teacher

Baseball

The game scheduled for Friday, June 18, to be played at Ponoka between Ponoka and Red Deer was called off on account of rain.

Lacombe went to Innisfail on June 18 and only had played four innings when the game was called. Rain interfered with the play. In the four innings play Lacombe had the lead by 4 to 1.

Lacombe ball team visited Ponoka on Tuesday night. Although Ponoka's nifty nine did win the game by a score of 22 to 13, they certainly played a poor game, errors by the score. The game all through was disappointing, and judging by the score one could naturally think of a cricket game. Lacombe seemed lost, but at times hit well although most of their runs were made on Ponoka's bad fielding. Boys, pull up your socks if you are to maintain your reputation as the "Nitty Nine."

Thursday Ponoka goes to Red Deer, and on Tuesday, June 29 Innisfail visits Ponoka.

The League standing is as follows:

	W	L	P.A.
Ponoka	5	0	19.0
Innisfail	2	2	2.00
Red Deer	1	2	3.53
Lacombe	0	4	0.00

Canada Needs More Workers

With present prospects for a bumper crop in Western Canada this year—the highest since 1914 says the Winnipeg Free Press—the call for more workers all clamoring for thousands of unskilled laborers to be used in construction work, coupled with the announcement that if they are not obtainable hundreds of miles of badly needed branch lines cannot be built, with such a shortage of coal, predicted that the country will be forced to rely entirely upon the production from its own mines, and with extensive road-building programs being directed, it is evident that the necessary labor cannot be obtained, the question of immigration to this country once again forms up as one of paramount importance.

During the war immigration was practically at a standstill, and the energies of all people were directed to war effort. As a consequence development work and construction programs of all kinds were halted. Now, after the war is over, there is an enormous amount of work to be done in order to "catch up." There may be a sufficient number of skilled labor, but it is admitted a great shortage of unskilled workers. Yet there must be unskilled workers in order that the skilled workers may be kept employed.

No doubt Canada could obtain all the foreign labor it requires if it let down the immigration bars, and throw the doors wide open to all and sundry who cared to come. But Canada have made up their minds not to repeat the mistakes of the past. The industries, law-abiding, physically fit and morally clean of all the world's races will be welcomed, but no longer will the offerings of Europe, the mentally deficient, the morally impure, the physically weak and weak, be allowed to enter Canada to pollute this country, carry infection to our people, and hinder the progress of our people.

The difficulty of securing the right type of immigrants, the only kind we are prepared to receive, and a choice, is increased by the fact that while the war-imposed restrictions of Europe are willing to allow the influx and emigration of their people to emigrate, they are anxious to retain the strong and sound in order to re-establish all the productive energies of their own lands.

According to United States government immigration officials only lack of ships is keeping back hundreds of thousands of prospective immigrants from flocking to that country notwithstanding the post-war passport restrictions. The Washington Tribune declares that "nearly a thousand aliens in many European countries have applied for permission to emigrate to America." The Literary Digest says that for more than a month immigrants have been arriving in the United States at the rate of ten thousand weekly.

It will be seen, therefore, that notwithstanding the restrictions now enforced by the United States and Canada are undesirable, and the efforts of European countries to retain those of their own people when one of the desirable immigrants type, workers can be obtained if the government immigration officials best themselves. In particular, Canada should strive to secure the best and real workers from the British Isles and the United States, and other countries should prefer to enhance the immigration.

Tea and Coffee Drinkers

who find it advisable to leave off tea and coffee, find a cup of

INSTANT POSTUM

delights the taste and satisfies the appetite with no harm to health. Thousands of former tea and coffee drinkers now use Postum.

There's a Reason

ants. We read in a United States paper: "Numbers of Italians, Spaniards, and French are going to Argentina, where there are many of these nationalities already located. Free land is being given to the newcomers."

"Small is not only paying passage for immigrants, but takes care of them on arrival, and transports them free to their destination."

"New Zealand has arranged with shipping companies for reduced fares for desirable immigrants."

"So, Canada will have many competitors in the effort to secure desirable settlers and workers. Yet no student of present day conditions in this country can question the need of additional population in this country. Without it, people now here must carry unduly heavy burdens of taxation, while at the same time going without conveniences and services to which they are entitled and need in order to prosper as they should."

Government officials can do much, but every individual can assist by making the newcomer welcome and assisting him in every possible way to "make good," and thereby become a satisfied and contented citizen, to the aid of the hard man or woman should be met as gladly as it is in the power of the employer to make it.

Dread of Asthma makes countless thousands miserable. Night after night the attacks return and even when they are started off, leaving the afflicted one in a state of peace and happiness, the one who believes in never enjoy. Inexpensive and sold almost everywhere.

Similarity in Food Prices

Cost in Ottawa Slightly Higher Than in London, England.

A remarkable similarity in the cost of groceries in England and in Canada is revealed in a comparison of a budget of household staples in the two countries, made within the last month. The figures are given out by a Canadian official. Pricing a score of staples, ranging from bread to canned goods, the whole average cost about a dollar more in Ottawa than in London, England. Bread is 4 cents higher in Canada, and butter is 1 cent per pound higher, and jam and marmalade range from ten cents to 12 cents higher here. But in England, the cost of butter is 10 cents per pound higher, and jam and marmalade range from ten cents to 12 cents higher here. But in England, the cost of butter is 10 cents per pound higher, and jam and marmalade range from ten cents to 12 cents higher here.

Good for Father and Good for Son

MR. C. ROY PRAISES DODD'S KIDNEY PILLS

He States That They Relieved His Son of Bed Wetting and Himself of the Trouble of Kidney Pills. "I am glad to be able to state," Mr. C. Roy says, "that my son, who is now a healthy boy, has been cured of bed wetting by the use of Dodd's Kidney Pills. He also helped my bladder trouble by the use of Dodd's Kidney Pills. I cannot say too much in praise of Dodd's Kidney Pills. They are a kidney remedy pure and simple. But bladder and urinary troubles come as a result of weak or diseased kidneys. The natural way to treat such trouble is to strengthen or help the kidneys. Mr. Roy says on this principle all his own and his son's troubles. His satisfaction has got to be voiced by his statement: 'If you have not tried your ownself, try Dodd's Kidney Pills. They are not the remedy for kidney pills.'"

Many a man has delusions who would prefer to enhance the immigration.

SUNDAY SCHOOL LESSON

LESSON FOR JUNE 27

REVIEW: THE NOBLE LIFE OF SAMUEL

The method of review must largely be determined by the teacher and the grade of the class. For the junior and intermediate grades a good way will be to make it biographical, centering in Gideon, Eli, Samuel, Eli's son, and David. For the senior, the outstanding personality is Samuel.

For the older classes the following from the Bible may be used as an interesting and profitable method:

"This review, suited to older classes only, will deal with difficult questions involved in or suggested by the various lessons of the quarter, questions to which you may not have had time to answer, but which it is intended to be only suggestive:

Lesson I.—How to put religion into our state and national government.

Lesson II.—How to utilize the power of the church.

Lesson III.—How to bring together and use the religious and brave minority.

Lesson IV.—How to single out and help the deserving poor.

Lesson V.—How to develop the religious capacities of children.

Lesson VI.—How to develop the religious capacities of parents to their children's faults.

Lesson VII.—How to bring to bear upon public questions the decisive power of the church.

Lesson VIII.—How to select the best leaders in church and state.

Lesson IX.—How to develop individual initiative without the loss of discipline.

Lesson X.—How Godly men may help the poor and the oppressed.

Lesson XI.—How to inspire children with lofty ideals.

Lesson XII.—How to make our country a land of righteousness.

A plan which can be adapted to all grades is the gathering of the main facts of the life of Samuel and then making the following are suggestions as to the leading lessons:

Lesson I.—How to single out and help the deserving poor.

Lesson II.—How to utilize the power of the church.

Lesson III.—How to bring together and use the religious and brave minority.

Lesson IV.—How to single out and help the deserving poor.

Lesson V.—How to develop the religious capacities of children.

Lesson VI.—How to develop the religious capacities of parents to their children's faults.

Lesson VII.—How to bring to bear upon public questions the decisive power of the church.

Lesson VIII.—How to select the best leaders in church and state.

Lesson IX.—How to develop individual initiative without the loss of discipline.

Lesson X.—How Godly men may help the poor and the oppressed.

Lesson XI.—How to inspire children with lofty ideals.

Lesson XII.—How to make our country a land of righteousness.

Lesson XIII.—How to develop individual initiative without the loss of discipline.

Lesson XIV.—How to select the best leaders in church and state.

Lesson XV.—How to develop individual initiative without the loss of discipline.

Lesson XVI.—How to select the best leaders in church and state.

Lesson XVII.—How to develop individual initiative without the loss of discipline.

Lesson XVIII.—How to select the best leaders in church and state.

Lesson XIX.—How to develop individual initiative without the loss of discipline.

Lesson XX.—How to select the best leaders in church and state.

Lesson XXI.—How to develop individual initiative without the loss of discipline.

Lesson XXII.—How to select the best leaders in church and state.

Lesson XXIII.—How to develop individual initiative without the loss of discipline.

Lesson XXIV.—How to select the best leaders in church and state.

Lesson XXV.—How to develop individual initiative without the loss of discipline.

Lesson XXVI.—How to select the best leaders in church and state.

Lesson XXVII.—How to develop individual initiative without the loss of discipline.

Lesson XXVIII.—How to select the best leaders in church and state.

Lesson XXIX.—How to develop individual initiative without the loss of discipline.

Lesson XXX.—How to select the best leaders in church and state.

Lesson XXXI.—How to develop individual initiative without the loss of discipline.

Lesson XXXII.—How to select the best leaders in church and state.

After house-cleaning freshen up your floors with

Kyanize

Don't use a floor finish which will leave unsightly worn spots after a little wear. Kyanize is made especially to stand the scuff and tread of heavy shoes, without cracking, peeling, or turning white. It is a colored finish, instead of a mere mixture.

Kyanize also makes a beautiful, sanitary, most durable finish for furniture and all woodwork about the house.

A Seven artistic colors, and clear; also white enamel. Come in and get a small can of Kyanize and give it a trial. The makers guarantee it absolutely, and so do we.

A. A. GRAHAM

JOTTINGS
OF
TOWN AND
DISTRICT.

Local News.

Mr and Mrs Frank Boyd, of Chesterfield, are spending a few days in Edmonton.

E. E. Owens left on Monday for Grande Prairie. Not as far as Edmonton and had to return. No railway facilities.

Mr and Mrs J. R. Laycock visited in Edmonton last week with the latter's sister, Mrs John Perry.

Farmers interested in an electric light plant for farm use will do well to call at Ponoka Engineering Works and see a really well made and substantial outfit.

Mrs Bert A. Stoddard and son left the other day for Spokane where they will visit with relatives for a time.

Mr and Mrs J. P. Kent, of Lockhart, were in town Tuesday. Mr Kent was a delegate to the convention in Wetaskiwin on Tuesday and Wednesday.

U.F.A. Sunday was fittingly observed by many locals in our district, and appropriate services held in the churches and schoolhouses.

Mrs Headley has installed a new motion picture machine. It is motor driven, and fully up to date. There is no lack of enterprise in that quarter.

School examinations are being held this week, and the pupils are saving an anxious time. May they have the best of luck, and all pass.

Mrs N. C. V. Nielsen has purchased the C. S. Wing residence in the north end of town. Mr Wing has moved his family out to the farm in the Dakota settlement.

Ray Drummond killed a flying squirrel on the fair grounds last week. This species are said to be rare in these parts. The skin of the sides extend between fore and hind legs so as to a certain extent sustain the animal in the air when taking long leaps.

From the Morning Star, Calgary June 17.—"Pots and Pans Harry Small, Prunely Edwards, Farmer Clarke and Baseball Joe, of the 'Commoners and Merchants' Banks respectively, of Ponoka, passed through the city today, enroute to the Pacific Coast for the summer. The Professor expects to initiate the crew into the mysteries of the lobster fishing."

Mr and Mrs W. Hayhurst returned on Friday from a lengthy visit to Great Britain. They had a fine holiday, and Mr Hayhurst gives a glowing account of conditions as he found them in the old land. Money is plentiful, and the farmers specially are doing well. The large estates are being broken up, and the farmers are buying their holdings.

What will be thought of Mr Frost's contribution toward our town's sanitary conditions? Is he right or wrong? It is perhaps well to know what the stranger thinks.

Dr. Mecklenburg, eye specialist, will be at the Royal Hotel, Ponoka, on Tuesday, July 17th.

Miss Ingle has gone to her home in Jasper Park for a time. She is in very indifferent health, and it is hoped that the change will do her good.

Tuesday was the longest day of the year, and there was a regular plethora of weddings in our midst. The H.C.L. has no terrors for the young and the brave.

A. J. Smith, of Wyoming, has arrived in our midst, and expects to make his home with his daughter, Mrs (Dr.) Budd.

If present conditions continue the crops will be as far advanced by another week as they were at this time last year. Weather conditions are perfect.

Every red-haired woman admitted to the Empress Theatre free of charge on Saturday to see "Redhead."

J. H. Guin is opening a monument works on Donald Ave., just west of the Christian Church. Mr Guin has just arrived here from Swift Current, and has had quite a number of years' experience in this particular business.

A joint meeting of the Ladies' Orange, the Orange and Black will be held in the lodge rooms for discussion of the 12th of July celebration on Wednesday evening next. Ladies please bring baskets.

The C.G.I.T. will be in charge of a cario exhibit, to be held in the old bank building, Reid block, on Saturday, June 26. The cario will consist of ancient pieces of china, war souvenirs, foreign coins, etc. There will also be a sale of work, made by girls of the club. Doors open at 10 a.m. Admission 15c and 25c. Parties having suitable articles to exhibit might leave them at Reid's store, and oblige.

HENNEY.—On Friday, June 18 to Mr and Mrs E. Henney, a son.

An old time social will be held in Wood River hall on Friday evening, July 2nd, under the auspices of the Maple U.F.W.A. Plates will be sold at 50 cents each for adults and 25c for children. Proceeds to go to the Ponoka rest room fund.

Lady's umbrella lost in town. Finder please leave at Herald office.

Weddings

NELSON-MACLEOD

A quiet wedding was solemnized at the Roman Catholic Church, Hobbs, on Tuesday, June the 15th, when Ellen, only daughter of James and Elizabeth MacLeod, of Macleod, Nova Scotia, became the wife of Neil Nelson, of Edmonton. The bride's brother, John, of Ponoka, acted as best man, and his wife attended as the bride. In the evening the couple and friends motored to Wetaskiwin, where they enjoyed a dainty wedding supper and from thence, back to the farm of the bride's brother at Ponoka where they are spending a few days. They will make their home in Edmonton.

BROWN-McCAUGHEY

A very pretty wedding took place at the home of Mr and Mrs McCaughey, of Concord, on Monday, June 21, when their daughter, Martha Margaret, was given in marriage to Mr Arthur Edwin Brown—Rev. E. G. Turner officiating.

The bride was charmingly attired in a blue silk, and carried a bouquet of roses and carnations. They were supported by Miss Edith Montgomery and Mr Glenn McCaughey, brother of the bride. About forty guests were present. After the ceremony, all sat down to a dainty luncheon.

The happy couple were the recipients of many useful and pretty presents as they were also of the good wishes of their host of friends and acquaintances. During the afternoon the bridal party left for the north.

STEPHENS-LUX

A quiet but pretty wedding took place on Monday afternoon, June 21st, at the home of Mr and Mrs Anton Lux, when their daughter, Blanche Louise, was married to Mr Bruce Osborne Stephens. The Rev. E. G. Turner performed the ceremony.

Only the immediate relatives and a few friends were present. The young couple received many beautiful and useful presents. Mr and Mrs Stephens went north on the evening train.

EDMONTON EXHIBITION

We understand that a number from this locality are considering the advisability of motoring to the Exhibition grounds in Edmonton, and living in a tent on the fair grounds during the coming exhibition, July 24th to 10th. This camping ground was very popular last year, solving two problems for the average tourist—accommodation and expense. The exhibition management have made arrangements with a tent company to supply tents at \$2 for the one, \$3 for the two, and \$4 for the three, and for the week, \$7 for the 12x14, and \$8 for the 14x16 foot size. Tent dealers the city with draw mattresses are supplied at \$2.50 each for the week. Free parking space is provided beside each tent for motor cars. Campers will provide their own bedding. A kitchen with good stove and running water is provided for the free use of campers.

The Provincial Health Department will conduct a baby clinic at the Exhibition, and free examination of babies will be made by the departmental staff, and nurses, and the necessary advice as to care and feeding. Dr. T. J. Norman, Provincial Health Department, or W. J. Stock will be glad to furnish particulars as to this clinic.

LOST

In Town or round between the North and South Bridges, Gentlemen's Gold Watch and chain. Finder please leave same at Herald Office, toward given.

LOST BY RETURNED SOLDIER

In Ponoka or on trail leading north, a pocket book containing large sum of money. Written inside was R. L. McLaughlin, Suite 71, Strathcona Bldg., Calgary. Finder please communicate with this party at Ponoka, or leave same at Alga's Store and receive reward.

The King Works in Overalls

Bulgarian Monarch Would Like to be Engine Driver

King Boris, of Bulgaria is noted among his people for his democracy, simplicity and ability, and these personal qualities stood out strongly in a talk a correspondent had with him at the royal summer palace just outside of Sofia.

The young king dressed in overalls and jumper, was found adjusting the driving mechanism of a little locomotive which stood on a narrow gauge track near the entrance of the palace grounds.

"From childhood," said King Boris, who speaks excellent English, "I have always wanted to run a locomotive and own a real steam railway, and now I have one."

"My interest in locomotives began when one of your generous Americans, Charles R. Cross, of Chicago, made me a Christmas gift of a toy steam engine. That was when I was five years old. If I were not a king I should want to run one engine."

There are less responsibilities in running an engine than in ruling a country."

Thirty thousand cubic feet of air weighs roughly one ton.

For Colds, Catarrh or Influenza

Do you feel weak and sneezal to do your work as usual? Do you still cough a little, or do you more bother you? Are you pale? Is your blood thin and watery? Better put your body into shape. Build strong!

An old, reliable blood-making and health tonic made from wild rose and bark, is Dr. Williams' Pink Pills for Pale People. It will build up your body and protect you from disease which lurks everywhere.

These pills are made from the most potent and purest ingredients of the blood-making and health tonic. It will build up your body and protect you from disease which lurks everywhere.

Canadians Filling
Important Positions

Winnipeg Man, Finance Minister and Food Controller in Saar Basin Government

The way in which the reins of the world government are already being taken up by Canadians as a result of the operations of the League of Nations, was indicated by Sir Herbert R. Ames, in discussing the work of the Canadian delegation to the last last. He mentioned that R. D. Waugh, of Winnipeg, who has been appointed one of the commissioners of the Saar Basin, is one of the few men who constitute a government with greater powers than any provincial legislature in Canada, and whose administrative duties are exercised over an area in Europe which has a larger population than Saskatchewan.

Mr. Waugh is the finance minister of that government and without his consent, no expenditure can be entered. He is also food controller, and has taken steps to install a modern up-to-date cold storage plant, and is planning the opening of an agricultural institute for the better training of farmers.

A difficult with government employment has been secured by Waugh, who has his headquarters at Saarbrück, a city of 100,000 population and its residence is a commodious mansion, formerly occupied by the president of the German railway system for West Prussia. "I would not be at all surprised if there were a demand for more men of the same stamp for similar positions," added Sir Herbert.

Men Advised to
Stay on the Farm

Country Better Than Restricted Life Of City Factories, Stores And Offices

The Farmers' Sun advises the men who are working on the farm to stay where they are and not be lured to the cities by attractions that are often deceptive. It warns them that working in smoky, stuffy, overheated factories is not the most desirable life in the world, and asks them to compare the restricted life in the city with the freedom and sunshine of the open spaces of the country.

Such advice and warning should not be allowed to pass unheeded. The city life, when seen at a distance, has many advantages, but on closer investigation it is learned that most of these are paid for at a costly rate, in one way or another. People in the country lead the extraordinary wages earned by mechanics in the cities, shorter hours of labor and the various opportunities for amusement. What people in the country are likely to overlook is that large numbers of workers in the cities are earning extraordinary wages, but the cost of living is very high, even those who do not earn good wages; that if the hours of labor are long, and the pay is not high, the labor life in many cases is hard and unattractive; that life in the cities is strenuous, and when times are bad is decidedly difficult.

Math has already been used to improve the conditions of the farm worker. Labor-saving machinery has been introduced. The telephone, the automobile and the trolley have done much to overcome the isolation of the farm. The multiplication of labor-saving machinery, competent management, and with the demand for farm products, it is now possible to pay such wages as would attract and retain help.

DO YOUR EARS RING?
HAVE YOU CATARRH?

A buzzing noise in the head is the beginning of chronic Catarrh. If not checked the noise is distressing and simple remedy that many physicians have found to be of great benefit.

The soothing power of Catarrhine comes from the fact that it soothes the inflamed membrane of the ear, throat, nose and lungs. Catarrh, then, is probably no remedy so efficient. The large one dollar bottle lasts two months and is guaranteed; small size fifty cents.

Small size fifty cents. Catarrhine is available at all drug stores, or by mail from the Catarrhine Co., Kingston, Ont.

Boy Hanged by Friends

Were Reproducing Film Drama They Had Seen

A tragedy which recently occurred in the city of Winnipeg, in the Pyrenees region, has again brought the question in France of the influence of moving pictures on children.

A few boys between the ages of 10 and 12 years were playing together when one of them suggested that they should play moving pictures. They selected for their reproduction the hanging scene they had recently seen in a film drama. One of the little boys played the part of the man who was to be hanged. A chair and a noose were slipped under his feet and he remained hanging from the gallows.

Under his feet and he remained hanging from the gallows. The chair fell and the noose was slipped under his feet and he remained hanging from the gallows.

Under his feet and he remained hanging from the gallows. The chair fell and the noose was slipped under his feet and he remained hanging from the gallows.

Good Sense of Americans

Factional Hatred Becoming More And More Distant

We have always contended that the good sense of the American people as a whole would manifest itself in relation to British affairs. Resolutions passed by many organizations including branches of the American Legion and church conferences, bear us out in this conclusion.

Factional hatred is becoming more and more distant to level-headed Americans. Sixty-six members of the faculty of Yale university have just sent to congress a protest expressing opposition to "congressional resolutions or items in political platforms touching on the relations of Great Britain and Ireland."—Ottawa Journal.

Dry Farming in the West

Attention Being Paid to Problems of Semi-Arid Areas

Much attention is being given by the Department of Agriculture to new methods of farming suitable for the semi-arid conditions. This study has been forced by conditions in the southwest part of Saskatchewan where, three years of more or less crop failures have caused a general demand for new methods. A conference of dry farming authorities has been called at Swift Current in July, which is expected to evolve a set of recommendations to guide settlers. The College of Agriculture at the University of Saskatchewan is also conducting experiments in the shape of sowing wheat and clover together.
